

SLOW IT DOWN

For All
Ages

Sketching is an easy way to slow down and look carefully at art. Give yourself a chance to draw what you see, with no worries about perfect technique or drawing skills.

THE JOSLYN

Use the space on this card however you wish—sketch, jot down insights about what you’re seeing, write a poem about your favorite artwork, create a materials list for your next art project, design an invitation for someone to visit The Joslyn with you...

Pencils only in the galleries, please.
